## REQUEST FOR VERIFICATION OF TRPA MOORING PERMIT

**This form is for property owners with existing buoys and moorings.  
A \$50 fee must be submitted with this request form. Submit by mail or hand deliver.**

In order to register existing moorings and mooring buoys that have been permitted by TRPA, property owners need to provide copies of permit documents stamped and signed by TRPA showing specific reference to moorings. Property owners who have that information are not required to submit this form. Please see the [TRPA-Permitted Mooring Registration Form and Biennial Buoy Maintenance Statement](#) to complete the registration process.

This form and associated filing fee allow TRPA staff to assist property owners with existing moorings to search archive files for buoy and mooring permits issued by the Agency. The Agency has identified many properties with existing TRPA mooring permits, but some moorings on Lake Tahoe were permitted by TRPA as a part of other, dissimilar projects, which limits the ability of database searches. TRPA files can also be searched by the public without a fee by visiting the TRPA office in Stateline, NV.

The result of this form will be a determination by TRPA of the existence of mooring permits issued by the Agency. If a permit is located by staff, a letter and stamped copies of the permit documents will be provided to the applicant. If no TRPA permits for existing moorings are located, a Buoy Application must be submitted in order to bring the buoy(s) into conformance with new shorezone ordinances.
