NOVEMBER
1986
NOTICE IS HEREBY GIVEN that the Advisory Planning Commission of the Tahoe Regional Planning Agency will conduct a special meeting at 9:30 a.m. on Wednesday, November 5, 1986, in the Manzanita Room of the North Tahoe Recreation and Parks Community Center, 8318 North Lake Boulevard, Kings Beach, California. The agenda for said special meeting is attached hereto and made a part of this notice.

NOTICE IS FURTHER GIVEN that the regularly scheduled meeting of the Advisory Planning Commission on the second Wednesday of the month is cancelled.

October 29, 1986

By: William A. Morgan
Executive Director
Tahoe Regional Planning Agency
SPECIAL MEETING AGENDA

I CALL TO ORDER AND DETERMINATION OF QUORUM

II APPROVAL OF AGENDA

III DISPOSITION OF MINUTES

IV PUBLIC HEARINGS
   A. Plan Area Statements for the Lake Tahoe Basin
   B. Environmental Impact Statement for the Plan Area Statements and Implementing Ordinances of the Regional Plan

V PLANNING MATTERS
   A. Discussion on Draft Environmental Impact Statement, Ski Incline Master Plan
   B. Notice of Circulation, Environmental Impact Statement for the North Shore Transit Maintenance Facility
   C. Discussion and Recommendation on TRPA Transportation Planning Programs as They Relate to the Tahoe Transportation District
   D. Report on the Regional Plan Implementing Ordinances

VI REPORTS
   A. Staff
   B. Legal Counsel
   C. Public Interest Comments
   D. AFC Members

X ADJOURNMENT
MEMORANDUM

October 29, 1986

To: Advisory Planning Commission

From: Agency Staff

Subject: Public Hearing: Plan area Statements for the Lake Tahoe Basin, Implementing Ordinances of the Regional Plan, and Environmental Impact Statement for the Plan area Statements and Implementing Ordinances of the Regional Plan

At the November 5 APC meeting, the Agency will conduct public hearings on the subject topics. The format for the hearings will be as follows:

-- Agency staff will make a brief presentation to inform the public on the concept of the Plan Area Statements and the DEIS.

-- The APC will hear testimony on the Plan Area Statements and the DEIS.

APC members have been provided with copies of the Plan Area Statements and the DEIS under separate cover. The Plan Area Statements binder includes introductory material to orient the reader, including information on the framework of the Regional Plan, the relationship of the PASs to other documents, Plan Area boundaries, and example PAS, and a legend to the PAS sections.

The DEIS, which began circulation on September 26, 1986, covers the proposed PASs and implementing ordinances. A summary of the DEIS has been included to assist the reader in reviewing the document.

The hearing on the ordinances has been continued until the November 19 Governing Board meeting to allow time for polishing the draft ordinances with the assistance of APC members, consensus members, and our consulting attorney, William Abbott. On November 4 we intend to release the final drafts of the ordinances we believe are necessary for the Agency to commence implementation of the Regional Plan. It appears there will be about 44 chapters of ordinances for consideration at the November hearing. Other chapters not initially essential will be developed over the next few months and will be subjects of Governing Board hearings later.

AGENDA ITEM IV
MEMORANDUM

October 28, 1986

To: Advisory Planning Commission

From: Agency Staff

Subject: Discussion on Draft Environmental Impact Statement, Ski Incline Master Plan

Since January, 1986, Tahoe Regional Planning Agency (TRPA) staff have been working with Incline Village General Improvement District (IVGID) staff; IVGID consultant Design Workshop, Inc. (DWI); the Forest Service; and Washoe County on preparation of an environmental impact statement for the master plan for expansion of Ski Incline. The APC reviewed administrative draft EISs in August and September, 1986.

At this time, the staff are working with IVGID and DWI on preparation of the DEIS for circulation. Circulation has not yet begun. At the November 5 APC meeting, staff will brief the APC on the status of circulation and any issues that remain to be resolved.

Agenda Item V.A.
MEMORANDUM

October 29, 1986

To: Advisory Planning Commission  
From: Agency Staff  
Subject: Notice of Circulation, EIS for the North Shore Transit Maintenance Facility

At the APC meeting, staff will distribute copies of the EIS/EIR on the North Shore Transit Maintenance Facility. Circulation has begun and an in-depth discussion of the document will be held at the December APC meeting.

If you have any questions, please contact Jim Brennan at (702) 588-3296.
MEMORANDUM

October 28, 1986

To: Advisory Planning Commission

From: Agency Staff

Subject: Discussion and Recommendation on TRPA Transportation Planning Programs as They Relate to the Tahoe Transportation District

Given the failure of the Tahoe Transportation District's (TTD's) most-recent sales tax initiative, and TTD's scaled-back budget, work program, and meeting schedule, the APC requested a report from staff on TRPA's transportation planning program for the purpose of making recommendations on TRPA's program.

The following paragraphs describe the activities of TRPA's four-person transportation and air quality planning team. This summary also lists a number of issues pertaining to TRPA's work program on which the APC may wish to make recommendations.

TRPA Management Objectives

TRPA's annual management-by-objectives (MBO) program includes a set of objectives related to transportation planning (Exhibit A). The staff is presently conducting its first quarterly review of these objectives.

RTP Update

The TRPA is a designated Regional Transportation Planning Agency (RTPA) in the State of California. State law requires the RTPA to submit a biennial update of its Regional Transportation Plan. Due to the TRPA's priority on development of ordinances and Plan Area Statements at this time, the 1986 update will not be completed until spring, 1987.
Transportation Team Strategy

To help carry out the RTP update, the transportation/air quality team has prepared a strategy covering the topics of coordination, scheduling, analysis, drafting the preferred alternative, drafting the balance of the RTP, and environmental documentation. The strategy (Exhibit B) includes a goal statement, a set of objectives, and a set of strategy statements in the six categories above.

Compliance Objectives

Articles V(c) and V(d) of the Tahoe Regional Planning Compact require TRPA to adopt, by ordinance, schedules for attaining and maintaining the thresholds and all applicable state and federal air and water quality standards. For each threshold and standard, the staff has identified the required control measures, and has translated each control measure into a compliance objective including an action, responsible entity, desired end product, and target date. The compliance objectives for air quality and transportation standards and thresholds (Exhibit C).

Redevelopment

The City of South Lake Tahoe's redevelopment study group has obtained contractor assistance to recommend design standards and transportation/circulation plans for the redevelopment study area, generally from Ski Run Boulevard to the state line. TRPA staff has worked with the City and the traffic consultant, DKS Associates, to explore various circulation alternatives for the area. An option which uses an enhanced loop concept coupled with a one-way thoroughfare through the loop is presently being analyzed, and appears to have promise for alleviating congestion in the area and reducing VMT. At the November 5 APC meeting, staff will make a brief presentation on this topic.

Overall Work Program/Air Quality Work Program

Much of the TRPA's transportation/air quality team's activities are supported by state and federal grants. Caltrans provides "subvention" funds to TRPA to carry out an "Overall Work Program," or "OWP," renegotiated annually. Through the California Air Resources Board (CARB), TRPA has also received a small grant for air quality planning from EPA under Section 105 of the Federal Clean Air Act. Copies of the work programs will be made available to the APC at the November 5 meeting.

AGENDA ITEM V.C.
Issues for Discussion

In light of recent developments affecting the TTD, the APC may wish to consider recommendations to TRPA staff on the following, and any related issues:

(1) Is the transportation/air quality team's strategy for completing the RTP complete? Are there additional objectives that should be considered and discussed?

(2) Does the preliminary circulation plan for the South Shore redevelopment area look promising? Would the APC encourage further analysis of the preliminary plan?

(3) How can the Region improve its ability to implement (i.e., finance) transportation improvements? How can we learn from the experience of other similar tourist-oriented areas?

(4) What is the most appropriate strategy for public participation in transportation planning?
D. **GOAL:** Carry Out Other Required Planning Duties

Transportation Planning Strategy
RTP Update - FY 1986-87

Overall Goal: To complete the 1986 update of the TRPA Regional Transportation Plan

Objective: Develop and implement strategies for the completion of the RTP

Strategies:

1. Coordination
   A. Goal: To ensure that the development of the RTP is coordinated with both public and private sectors in the Basin.
   
   B. Objective: Develop public information program and obtain input from public agencies, the general public and economic interests within the Basin.

   C. Strategies:
      - Document sections of the RTP as technical memorandums for agency review;
      - Identify issues and resolve in draft document;
      - Coordinate with Municipal Advisory Commissions;
      - Coordinate with Airport Consensus process;
      - Coordinate with Redevelopment Commission;
      - Review draft with APC;
      - Participate in discussions/workshops sponsored by Chamber of Commerce;
      - Circulate Draft RTP EIS and prepare Response to Comments; and
      - Conduct public hearings before APC and Board.

2. Drafting Preferred Alternative
   A. Goal: To develop a preferred alternative to recommend to the Board for adoption as the Transportation Element of the Regional Plan

   B. Objective: Draft a set of transportation measures that will provide a means of meeting the thresholds that have been set for the Basin and also provide for basic transportation needs.

   C. Strategies:
      - Analyze results of model;
      - Evaluate needs assessments;
      - Review input from public and agencies;
      - Evaluate transportation measures against thresholds; and
      - Develop draft of preferred alternative.
3. Drafting of Interim Materials and RTP
   A. Goal: To complete the RTP sections for administrative and staff review.

   B. Objective: Finish the drafting of the RTP Update sections supporting the development of the preferred alternative and draft the technical memorandums documenting the development of the RTP sections.

   C. Strategies:
      - Complete drafting of RTP Chapters supporting development of preferred alternative;
      - Document sections as technical memorandums;
      - Complete Social Services Transportation Needs section for submission to Caltrans;
      - Complete Financial/Implementation section;
      - Review and revise Goals and Objectives section; and
      - Complete graphics and cartographic needs.

4. Analysis Approach and Strategy
   A. Goal: To complete the necessary transportation impact analysis for the RTP update.

   B. Objective: Conduct additional transportation impact analysis and modeling for the development of a preferred alternative.

   C. Strategies:
      - Identify analysis and modeling needs;
      - Develop preferred alternative and model/analyze impacts; and
      - Analyze transportation impacts identified during EIS circulation and public hearings.

5. Implementation Plan
   A. Goal: To develop a funding plan which will facilitate the implementation of the RTP.

   B. Objective: Determine funding sources which will provide adequate, equitable and continuing revenue to complete the implementation of the RTP.

   C. Strategies:
      - Determine funding amounts required to implement the RTP;
      - Identify alternative funding sources for needed transportation improvements;
      - Develop recommendations for new or altered funding sources; and
      - Complete capital improvements section of RTP.
6. DEIS/FEIS
   A. Goal: To complete the required EIS process for the RTP update.
   
   B. Objective: Certification of the Final EIS by the TRPA Governing Board.
   
   C. Strategies:
      - Identify project (preferred alternative);
      - Develop alternatives to project;
      - Develop criteria to evaluate project and alternatives and complete evaluation;
      - Identify impacts of project and mitigation measures;
      - Conduct EIS scoping process;
      - Prepare Draft EIS and circulate;
      - Prepare Response to Comments;
      - Conduct public hearings before APC and Governing Board; and
      - Certify Final EIS.

MEMORANDUM

October 29, 1986

To: Advisory Planning Commission

From: Agency Staff

Subject: Report on TRPA Code of Ordinances

The staff has completed a draft Code of Ordinances that contains 75% of the proposed chapters. These chapters will be the subject of the November 19 and 20, 1986 Governing Board hearing.

The staff will present a brief overview and a copy of the draft Code to the APC members attending the meeting. Members not attending will be mailed a copy so please contact Julie Frame if you will not be attending and desire a copy mailed before the APC meeting.
