How to Apply for a Tahoe Regional Planning Agency (TRPA) Permit

This packet explains the TRPA process for applying for a permit to construct or create signage. The TRPA uses the best available science and planning practices to review each project individually so that Lake Tahoe can continue to be an Outstanding National Resource Water for this and future generations. TRPA's thorough project review standards are designed to balance the impacts of the built environment with the protection of Lake Tahoe's fragile, natural environment. The Agency values every project applicant and works hard to serve the public promptly and fairly. Please read this packet thoroughly. We hope it answers most of your application questions. If not, please call TRPA at (775) 588-4547.

Planners are available to assist you by phone Monday through Friday, 9:00 a.m. to 5:00 p.m. Front counter hours are Monday, Wednesday, Thursday, Friday 9:00 a.m. to 12:00 p.m. and 1:00 p.m. to 4:00 p.m. Closed Tuesdays. Applications are accepted until 3:00 p.m.

Please be aware that we may require information beyond that presented in this packet. Once your application is submitted, TRPA will contact you if additional information is required to adequately review your project.

Application Requirements

Prior to submitting a complete application to TRPA you should understand the basic information contained in the Sign Application Packet, available at the TRPA Front Counter or online at www.trpa.org.

If a project involves more than the installation, relocation or alteration of a sign, additional application requirements may be necessary. If your proposal to install, or modify a sign involves expansion of a building, grading, or excavation of more than 3 cubic yards of material, or creating or relocating land coverage, a standard commercial, public service or tourist accommodation application will be required.

If a new sign or sign modification is part of a change in commercial operation at the site, you may be required to file a Commercial Application or a Qualified Exempt Declaration. To determine whether or not the change in operation requires a full application you need to know: 1) The trip generation rate for the existing commercial use, and 2) the trip generation rate for the use you are contemplating. If the proposed use of the property would result in 100 or more new vehicle trips being created as determined by TRPA trip tables, you must file a Commercial Application. If the resulting trips generated are less than 100, you must file a Qualified Exempt Declaration.

If you need assistance in determining what information constitutes a complete application, or if a change in commercial operation generates additional vehicle trips, please contact TRPA staff for help at (775) 588-4547.

Submit a complete application to TRPA to avoid time-consuming and costly delays

All of the items on the checklist at the end of this document must be turned in for your application to be considered. TRPA may require additional information during review of this application.

Timeline for Appeals

If an applicant wishes to appeal a final decision by TRPA, pursuant to Rule 11.2 of the TRPA Rules of Procedure, a Notice of Appeal form and filing fee must be submitted within twenty-one (21) days from the date TRPA issues its final decision (date on correspondence). After 21 days, no appeals can be made and the Agency's decision is final.
